

**CALIFORNIA DEPARTMENT OF FORESTRY AND FIRE PROTECTION**  
**OFFICE OF THE STATE FIRE MARSHAL**

**1999/2000**

**CURRICULUM DEVELOPMENT AND REVISION PROJECTS**

<b>PROJECT</b>	<b>DESCRIPTION</b>	<b>ESTIMATED COMPLETION DATE</b>
<b><u>CFSTES</u></b>		
Course Development Guidelines	The guide outlines the course revision and development process for CDF and State Fire Training courses. The guidelines list the steps for developing a course, the project task force leader's role in the development/revision of a course, the course accreditation/ approval process, and curricula format standards.	5/00 (completed)
Fire Fighter CTS (CDG)	The Fire Fighter Certification Training Standards (CTS) Guide is the new title for what was once referred to as the Career Development Guide. The CTS is a listing of all the tasks that need to be demonstrated by a Firefighter in the State of California for certification at the Firefighter 1 and Firefighter 2 levels. All tasks are referenced to NFPA 1001 1997 standards, state and federal training mandates, and/or the State Board of Fire Services (SBFS) requirements. The SBFS approved the Fire Fighter CTS on Nov. 4, 1999.	11/99
Fire Management 1	The approved student manual for the Fire Management course is the <u>IFSTA Company Officer Manual</u> . IFSTA recently released the <u>IFSTA Company Officer Manual</u> 3 <sup>rd</sup> edition and the Fire Management 1 curricula have been revised to maintain consistency with the new textbook.	Revision completed in 1/00 - new curricula implemented on 3/00
Fire Investigation 1B	The Fire Investigation 1B course revision project was started in July 1999. Pilot courses for the new curricula were held in October and November of 1999. Final edits to the curricula were completed in February 2000.	Revision completion in 2/00 - new curricula implemented on 4/00

Urban Interface in CFSTES	The State Board of Fire Services has recognized the need to incorporate more Wildland Urban/Interface Training into the Fire Fighter, Fire Officer, and Chief Officer Certification tracks. The SBFS has approved an additional 32 hours of Urban/Interface training in the Fire Fighter 1 certification-training program. The State Training and Education Committee recently approved a CDF course titled Engine Company Officer in the I-Zone as the 9 <sup>th</sup> course in the Fire Officer certification track. The next step is to present the course to the SBFS for approval.	6/00
2000 Course Catalogue	A new CDF and OSFM course catalogue is being developed to provide a comprehensive listing of courses and descriptions. The catalogue will be the first of it's kind to provide a consolidated listing of all OSFM courses available through State Fire Training and will also include the CDF courses available to the California Fire Service at the CDF Academy in Lone, California.	6/00
Emergency Medical Technician –1	A curricula update and revision project is planned to start in June 2000. The revision will require adoption of a student manual and revisions to the current course materials.	9/00
Fire Fighter 1 and 2	A one-week revision workshop has been scheduled for August 6-11, 2000. State Fire Training is currently recruiting 45-50 participants to conduct a complete revision of the Fire Fighter 1 curricula in a weeklong workshop held at the CDF Academy in Lone, California. Fliers and applications were sent out in March 2000 and again in April to various Fire Departments and Fire Service Organizations through out the state to solicit volunteers for the project. Anyone interested in participating should complete the application and send it to the CDF/SFT Curriculum Development Division by June 30, 2000..	9/00
Fire Instructor 1A & 1B	A task force leader for the revision project has been selected and the task force participants are meeting on June 26-28, 2000. The project will start with an update of the Instructor CTS and full review of the NFPA 1021 and 1041. A thorough review of the new IFSTA Fire Instructor Manual 6 <sup>th</sup> edition will also be conducted.	7/00
Fire Prevention 1A & 1B	A task force leader is currently being recruited and a project plan will then be developed. The project will be placed on the FY 00/01 project list.	N/A

Management 2A, 2B, 2C, 2D and 2E	A task force leader needs to be selected and project plans developed. The project will be placed on the FY 00/01 project list.	N/A
<b>FSTEP</b>		
Rescue Systems 1	The revision to the curricula is approximately 95% complete. In addition to the new curricula, the revision task force has drafted new instructor requirements, site requirements, and an instructor task book for the course. The Statewide Training and Education Advisory Committee (STEAC) approved the all of the new requirements at their April 13, 2000 meeting. Plans are currently underway to present update courses for existing instructors at three locations within the state. Letters will be sent to existing senior and primary instructors to announce the date and location of update courses.	6/00
S-430 Operations Section Chief "All Risk"	This new Incident Command System (ICS) course was developed by FIRESCOPE for the California Fire Service. The course is designed to prepare the Operations Section Chief to perform on incidents other than wildland fires. The course was approved by STEAC and available through the State Fire Training Bookstore.	12/99
Rapid Intervention Crew Tactics	This course was developed by the California Fire Chiefs Association - Northern Section Training Officers and is based on a course presented in California by fire service personnel from the east coast. The training is designed to provide methods and techniques for fire fighters to save other fire fighters in life threatening situations. A meeting is scheduled for June 9, 2000 to discuss the final status of the curriculum.	3/00
